

Md Shahjahan

.NET Full Stack Developer

Phone +91 7319642320 | [✉ mdshahjahan2320@gmail.com](mailto:mdshahjahan2320@gmail.com) | [Md_Shahjahan|LinkedIn](#) | [mdshahjahan2320|github.com](#)

Skills:

Languages: C, C#, Python, SQL, HTML & CSS, JavaScript, Ajax

Frontend Frameworks: Bootstrap, Angular, React, jQuery, .NET Blazor, .NET Blazor

Backend Frameworks: Asp.net, ASP.NET MVC, .NET Core 8, Entity Framework, ASP.NET Framework, ADO.NET, Microservices

Database Skills(DBMS, SQL Server, and PostgreSQL): DBMS, Sql, Crud Operation, Stored Procedure, Views, Normalization, Joins, Triggers, Function, Index, Operator, SSIS/SSRS(Basic).

Tools: Azure DevOps, Azure Storage, Jira, Swagger, Insomnia and SonarQube

Platform: Visual Studio, Visual Studio Code, Pycharm, Jupyter Notebook, Notepad++.

AI Tools Using in Current Project: Copilot, Generative AI, and Agentic AI for fast project implementation.

Education:

Corporate Institute of Science and Technology (CIST, RGPV University Bhopal)

B.E in Computer Science and Engineering 8.67 CGPA

Aug 2016 – Jul 2020

Professional Summary:

- **Experienced .NET Developer:** Over 5.1 years of experience in designing and developing web applications using the .NET framework, currently contributing to innovative solutions at Infosys Limited.
- **Backend Expertise:** Skilled in C#, ASP.NET, MVC, .NET Core, and Entity Framework, with proven ability to design scalable APIs and robust business logic. Adept at applying SOLID principles, design patterns, and performance tuning to deliver secure, maintainable enterprise solutions.
- **Frontend Proficiency** Strong command of HTML, CSS, JavaScript, Bootstrap, and modern frameworks to build responsive, user-centric interfaces. Skilled at crafting visually appealing, accessible designs that enhance usability and deliver seamless cross-platform experiences.
- **Database & Integration:** Experienced in SQL Server and PostgreSQL, with expertise in designing normalized schemas, optimized queries, and stored procedures for high-performance applications. Skilled at seamless back-end integration to ensure data consistency, scalability, and efficient communication across services.
- **Cloud & DevOps:** Hands-on with Microsoft Azure (App Services, Functions, SQL Database), CI/CD pipelines, Storage, Key Vault, and Git, ensuring secure and efficient deployments.
- **Agile Collaboration:** Proven track record of thriving in Agile environments, translating business needs into user-focused solutions. Skilled at cross-functional collaboration, iterative development, and ensuring continuous delivery of high-quality applications.
- **Innovation & Problem Solving:** Passionate about leveraging technology to tackle complex business challenges and drive digital transformation. Skilled at delivering creative, solution-oriented approaches that enhance efficiency and create measurable impact.
- **Microservices Knowledge:** Solid understanding of .NET Core microservices architecture, RESTful APIs, and modular design principles. Familiar with API Gateway concepts and Docker/Kubernetes containerization for scalable, cloud-native solutions.

Professional Experience:

Senior Systems Engineer

Aug 2022 – To Present

- **Infosys Limited, India**

Hybrid, India (MNC, Bangalore)

1.3 years as Systems Engineer and 2.9 years as Senior Systems Engineer at Infosys Limited, Bangalore (Aug 2022 – Present)

- Leveraged Microsoft Copilot, Generative AI, and Agentic AI to accelerate delivery and minimize manual effort
- Applied Agentic AI frameworks to automate workflows, enhance decision-making, and support healthcare operations with intelligent agents.
- Contributed to the Molina Healthcare project, focusing on the development, maintenance, and optimization of healthcare-related software solutions for Medicaid, Medicare, and Marketplace programs.
- Worked on ticketing systems to address and resolve issues related to member enrollment, claims processing, and eligibility verification for Medicaid, Medicare, and Marketplace plans.
- Provided ongoing support, troubleshooting, and enhancements to existing systems, improving operational efficiency for Molina Healthcare's Medicaid, Medicare, and Marketplace initiatives.

- **At Infosys Limited- Project Name :** <https://www.molinahealthcare.com/>

- Spearheaded development and support for the Molina Healthcare project (US-based), within the Letters Team, focusing on letter management systems for Medicaid, Medicare, and Marketplace programs.

- Managed end-to-end letter management processes, including TCS Batch Configuration, TCS Outbound and Inbound Processes, TCS-UI, and database/table operations, ensuring seamless communication and compliance with healthcare regulations like HIPAA.
- Configured and optimized TCS Letter Configuration and Letter Edit Services, integrating with Mail Merge/PrintGateway (CRS/ClaimShark) for efficient document generation and delivery.
- Developed and maintained Pnf SSIS Packages, PnF Wrapper API, and TCS Autosys Jobs for streamlined reporting and batch processing, enhancing operational efficiency.
- Provided troubleshooting and resolution for production issues, utilizing Splunk for alert monitoring and root cause analysis across Dev, Staging, QA, UAT, and Production environments.
- Contributed to CM/UM Translation Processes and LMS/PNG systems, ensuring accurate data translation and system interoperability for healthcare workflows.
- Collaborated with cross-functional teams in agile methodologies, participating in sprint planning, code reviews, and testing to deliver high-quality, scalable solutions.
- Maintained CI/CD pipelines via Azure DevOps, enabling efficient and reliable code delivery across multiple environments: Development, Staging, QA, UAT, and Production.
- Used Git for version control and Jira for Agile project tracking, sprint planning, and issue resolution.
- Cloud-based solutions using Microsoft Azure, including: Azure Functions for serverless processing, Azure App Services for hosting web applications, Azure Data Factory for data integration and automation workflows
- Implemented and Maintained CI/CD pipelines via Azure DevOps, enabling efficient and reliable code delivery across multiple environments: Development, Staging, QA, UAT, and Production.
- Used Git for version control and Jira for Agile project tracking, sprint planning, and issue resolution.

Junior Web Developer:

Apr 2021 – July 2022

➤ **DialUrSearch Pvt Ltd, India**

Bokaro Steel City, Jharkhand (India)

1.3 years worked as Web Developer on Asp.net to create clean interfaces and simple, intuitive interaction and experiences.

- Contributed to the full-cycle development and successful implementation of a comprehensive School ERP software used by multiple educational institutions.
- Developed and maintained over 30 ERP modules, including key features such as: Parent, Teacher, and Student Portals, Online Payment Gateway Integration, POS Barcode System Integration Online Examination and Result Management
- Integrated ERP systems with school websites to provide real-time data access and online services for stakeholders.
- Collaborated on Hospital Management System (HMS) integration, extending ERP capabilities to healthcare environments.
- Built and supported E-Commerce website modules, implementing product catalogs, shopping carts, and secure payment systems.

At DialUrSearch Pvt Ltd: Project Details for School & College ERP and Websites

Dynamic School Websites with Admin Panel:

Developed and launched 5+ dynamic school websites with backend CMS for real-time content and user management.

Example: <https://www.pittsgomia.org/>, <https://www.innovativejainamore.org/>, <http://www.maps.bokaro.org.in/>

Technologies: ASP.NET, C#, HTML, CSS, JavaScript, MS SQL Server

- Built 2+ college websites with academic content management and user workflows.

Example: <https://www.agnursingcollege.in/>

Technologies: ASP.NET, C#, HTML, CSS, JavaScript, MS SQL Server

- **E-Commerce Software** (B2B Platform- Technologies: ASP.NET, C#, HTML, CSS, JavaScript, MS SQL Server)
Built a platform for manufacturers and suppliers, including inventory, order management, and secure payment gateway integration. **Example:** <https://www.freshkik.com/>

React and Angular projects: **Digital_TDTask_Management:** building dynamic, scalable user interfaces with a component-based architecture and Virtual DOM for efficient rendering, **Example:** <https://www.DigitalTDTaskManagement.com/>

- **Digital_Expense_Tracking:** Developed a web-based expense tracking system using Angular, featuring CRUD Operations, real-time dashboards, **Example:** <https://www.DigitalExpenseTracking.com/>

- **Permanent Address:** Village: Asota, Post: Kasba, Police Station- Mahagama, Dist-Godda, State-Jharkhand (813204)
Gender: Male, Date Of Birth: 02/09/1999 Marital Status: Unmarried

- **Declaration:** I hereby declare that the information provided above is accurate to the best of my knowledge, and I take full responsibility for its correctness.. **Place:** Bangalore
